

November 7, 1997

TO: STATE SANITARY CODE TITLE 5 INSPECTORS

FROM: GRANBY BOARD OF HEALTH

The Granby Board of Health wants to inform you of the three policies regarding the Title 5 Septic Inspections that the Board of Health approved at their meeting on November 3, 1997.

1. The Board of Health now requires a minimum of forty eight (48) hours notice prior to conducting a Title 5 septic system inspection. Please call 467-7179 to schedule inspections so that a Board member may be available to witness the work.
2. Title 5 inspection procedures requires the system inspector determine the elevation of the high seasonal water table with respect to the bottom of the soil absorption system. In accordance with Title 5, only State certified soil evaluators may perform this task.
3. The Board of Health will only accept *conditional approval* or *needs further evaluation* descriptions with an evaluation of the system having been completed by a Registered Sanitarian or Registered Professional Engineer.

GRANBY BOARD OF HEALTH
