Record Of The Presidential Primary Held On March 05, 2024, Cont'd

To note: Inactive voters are those individuals who have not answered their annual census or have not voted in past elections or meetings for the last four years. If they remain dormant for four years or two biennial election years, they will be removed from the voting rolls.

Once a voter is removed from the voting rolls, they must re-register to vote. If an individual tries to vote and they are not on the voting rolls they may file a provisional ballot. A provisional ballot will not count unless it is proven that the voter should not have been removed from the voting rolls or should have been registered but somehow was not recorded.

If it is proven that they still should have been on the voting rolls, or they should have been registered then that provisional ballot will be counted.
