

Solid Waste Advisory Committee
Charge

Objective: to identify, investigate, and recommend solid waste disposal options including, but not limited to, contracting for a curbside waste collection program, building a transfer station, and creating a solid waste district with other municipalities. All options should address residential waste disposal, yard waste, recycling, waste prevention, and any costs to users, taxpayers, and the Town.

Schedule & Deliverables

September: notify Town Administrator of progress

December: meet with the select board to provide an update

February: submit a short summary of the committee's purpose
and progress for the annual town report

May: submit a written final report and recommendation to the select board
