

**Solid Waste Advisory Committee**  
**Charge**

**Objective:** to identify, investigate, and recommend solid waste disposal options including, but not limited to, contracting for a curbside waste collection program, building a transfer station, and creating a solid waste district with other municipalities. All options should address residential waste disposal, yard waste, recycling, waste prevention, and any costs to users, taxpayers, and the Town.

**Schedule & Deliverables**

**September:** notify Town Administrator of progress

**December:** meet with the select board to provide an update

**February:** submit a short summary of the committee's purpose  
and progress for the annual town report

**May:** submit a written final report and recommendation to the select board
