QUESTIONS

QUESTION 1: LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives on or before May 5, 2020?

SUMMARY

This proposed law would require that motor vehicle owners and independent repair facilities be provided with expanded access to mechanical data related to vehicle maintenance and repair.

Starting with model year 2022, the proposed law would require manufacturers of motor vehicles sold in Massachusetts to equip any such vehicles that use telematics systems — systems that collect and wirelessly transmit mechanical data to a remote server — with a standardized open access data platform. Owners of motor vehicles with telematics systems would get access to mechanical data through a mobile device application. With vehicle owner authorization, independent repair facilities (those not affiliated with a manufacturer) and independent dealerships would be able to retrieve mechanical data from, and send commands to, the vehicle for repair, maintenance, and diagnostic testing.

Under the proposed law, manufacturers would not be allowed to require authorization before owners or repair facilities could access mechanical data stored in a motor vehicle’s on-board diagnostic system, except through an authorization process standardized across all makes and models and administered by an entity unaffiliated with the manufacturer.

The proposed law would require the Attorney General to prepare a notice for prospective motor vehicle owners and lessees explaining telematics systems and the proposed law’s requirements concerning access to the vehicle’s mechanical data. Under the proposed law, dealers would have to provide prospective owners with, and prospective owners would have to acknowledge receipt of, the notice before buying or leasing a vehicle. Failure to comply with these notice requirements would subject motor vehicle dealers to sanctions by the applicable licensing authority.

Motor vehicle owners and independent repair facilities could enforce this law through state consumer protection laws and recover civil penalties of the greater of treble damages or \$10,000 per violation.

A YES VOTE would provide motor vehicle owners and independent repair facilities with expanded access to wirelessly transmitted mechanical data related to their vehicles’ maintenance and repair.

A NO VOTE would make no change in the law governing access to vehicles’ wirelessly transmitted mechanical data.

Question 1-NO	416	345	761
Question 1-Blanks	94	89	183
Question 1-TOTAL	<u>2067</u>	<u>1910</u>	<u>3977</u>

QUESTION 2: LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives on or before May 5, 2020?

SUMMARY

This proposed law would implement a voting system known as “ranked-choice voting,” in which voters rank one or more candidates by order of preference. Ranked-choice voting would be used in primary and general elections for all Massachusetts statewide offices, state legislative offices, federal congressional offices, and certain other offices beginning in 2022. Ranked-choice voting would not be used in elections for president, county commissioner, or regional district school committee member.

Under the proposed law, votes would be counted in a series of rounds. In the first round, if one candidate received more than 50 percent of the first-place votes, that candidate would be declared the winner and no other rounds would be necessary. If no candidate received more than 50 percent of the first-place votes, then the candidate or candidates who received the fewest first-place votes would be eliminated and, in the next round, each vote for an eliminated candidate would instead be counted toward the next highest-ranked candidate on that voter’s ballot. Depending on the number of candidates, additional rounds of counting could occur, with the last-place candidate or candidates in each round being eliminated and the votes for an eliminated candidate going to the voter’s next choice out of the remaining candidates. A tie for last place in any round would be broken by comparing the tied candidates’ support in earlier rounds. Ultimately, the candidate who was, out of the remaining candidates, the preference of a majority of voters would be declared the winner.

Ranked-choice voting would be used only in races where a single candidate is to be declared the winner and not in races where more than one person is to be elected.

Under the proposed law, if no candidate received more than 50 percent of first-place votes in the first round, the rounds of ballot-counting necessary for ranked-choice voting would be conducted at a central tabulation facility. At the facility, voters’ rankings would be entered into a computer, which would then be used to calculate the results of each round of the counting process. The proposed law provides that candidates in a statewide or district election would have at least three days to request a recount.

The Secretary of State would be required to issue regulations to implement the proposed law and conduct a voter education campaign about the ranked-choice voting process. The proposed law would take effect on January 1, 2022.

A YES VOTE would create a system of ranked-choice voting in which voters would have the option to rank candidates in order of preference and votes would be counted in rounds, eliminating candidates with the lowest votes until one candidate has received a majority.

A NO VOTE would make no change in the laws governing voting and how votes are counted.

<u>Question 4-TOTAL</u>	<u>2067</u>	<u>1910</u>	<u>3977</u>

The polls opened at 7:00 a.m. and closed at 8:00 p.m., Covid-19 is still plaguing are lives so we are maintaining the social distancing, wearing face masks, and keeping the windows open for good circulation, conditions are a little cold since the temps were in the low 40's but the poll workers are all in good spirits.

This year because of Covid-19 the Board of Health and the School Engineers deemed the High School Gym unfit for the public due to poor air circulation in the gymnasium, but it was determined the cafeteria would be fine as long as we kept the doors and windows open.

Voters parked as always by the back-parking lot of the gymnasium. The voters entered through the back-kitchen doors and exited out onto the stage and out the front gym entrance doors. Doing this the traffic was moving one way keeping the voters safe with the distancing and making it easier to move around in the cafeteria.

The polls have been moving steady all day long even though "Early Voting" captured many of the voters due to the coronavirus. Because of the coronavirus the voters had many different opportunities on how they could vote, many went with "Early Voting By Mail" this started at the beginning of October, others went to Early Voting "In-person" this was held at the "Old Library" from October 17 - October 30 and others just preferred the old fashion way and voted on Election Day in-person.

Another change to this year's election because of Covid-19 was the opportunity to process those mail-in and in-person early votes by "Advance Ballot Processing" this was to alleviate the burden on the Clerk's and election workers by starting the ballot casting from October 25 - November 2 and finishing the tallying on election day at the polls. No results were recorded until 8 pm on Election Day at the election polls.

At the close of voter registration on October 24, 2020, the town had 4,847 registered voters which 306 were considered as Inactive voters.

Inactive voters are those voters who have not voted or answered their Annual Census in two biennial election years and will be removed after four years have gone by unless they can prove proof of residency.

We had 2,775 voters vote Early either "By- Mail" or "In-person", and 1,202 came out to vote on Election Day. This was a record turnout for Granby nearly hitting the 4,000 mark with 3,977 voters that voted, that is 82% that came out to support their candidates and the questions.

We also had two Provisional Ballots filed but it was proven that they were not eligible to vote in Granby at the time of this Election, therefore their ballots were not counted.

*To Note: Provisional ballots are filed by the voter when a voter does not show up on any voting list, there's no record on the Active, Inactive or the Deleted lists, then a search is required and if the voter actually should be eligible their vote is processed and counted.*

I certify that all ballots cast for candidates and the questions in this Presidential/State Election that was held on Nov. 03, 2020 have been counted and recorded in accordance with the law.

Respectfully submitted,

  
Katherine A. Kelly-Regan  
Town Clerk, CMMC
